

zappi

eco-smart charging station for electric vehicles

zappi is a smart EV charger with a difference. Not only does it operate as standard for electric car charging, it has optional charging modes to utilise 100% GREEN energy generated from your Solar PV or wind generation. Increasing the Return On Investment (ROI) for your panels and electric car, the zappi is very user friendly.

Being the first-ever electric car charger of its kind, the innovative team has carefully designed features and functions to give you complete control of your electric car charging experience. Paired with the myenergi app, you can set timers to utilise economy tariffs, use the boost function, monitor your devices, and so much more!

This future proof, intelligent electric car charger is conceived, evolved, and manufactured in-house in the UK.

If you don't have a PV (photo voltaic) system zappi still operates like an EV charge point importing energy from the grid. You can always add a solar or wind system later.

Perfectly pair all your myenergi devices easily, enabling you to control your homes flow of energy with the myenergi hub & app

Set Timers

At certain Hours 'time of use energy tariffs' are significantly cheaper. With zappi you can use the 'boost timer' option to start charging at times with the lowest rates. It's a cost-saving charging alarm clock for your EV

No Earth Rod

Zappi is the only electric car charger with built-in PEN technology. It's the safest choice for an electric car charger, eliminating the need to install additional earth rods this in turn means no extra costs

Additional information surrounding Earth Rods

PV Charging

Zappi works in harmony with your Solar PV or wind generation, meaning you can charge your car using green energy for free! If you haven't got a renewable energy source at home, zappi works just the same as any other charger in 'fast mode'

Remote Access

The myenergi app and hub allow you to access your devices from anywhere in the world! Visual graphs allow you to monitor your import / export information all in one place

Pincode Protected

A 5 digit pincode is a security feature integrated into this smart EV charger should you wish to use it. It prevents people from changing your settings, or using your charger without permission or tampering.

3 Year Warranty

As well as having our excellent technical support team on hand to answer any of your questions and queries, zappi also comes with a 3-year warranty. Once your myenergi zappi has been installed, just register your individual products to take full advantage of the 3 year warranty support.
