

## ENVIRONMENTAL STATEMENT OF INTENT

Aspect Group Services Ltd provides Roofing and Property Services, operating in the private, commercial and public sectors. This policy relates to all activities and locations where Aspect Group Services Ltd operates whilst delivering Roofing or Property Services works.

It is the responsibility of all persons who work for Aspect Group Services Ltd (Directors, Managers, Employees, Contractors etc.) to ensure that no individual is adversely affected by environmental aspects of our work activities. In this way, each and every individual within Aspect Group Services Ltd has a vital part to play in maintaining and improving our environmental standards. We are committed to preventing pollution and protecting the environment.

Responsibility for the overall implementation, maintenance and development of our Environmental Management System ultimately rests with the Senior Management of Aspect Group Services Ltd. This includes the setting and reviewing of objectives, and the provision of adequate resource to allow those objectives to be achieved. This process is undertaken with the participation and consultation of employees and affected parties.

It is also the responsibility of Senior Management and the individual/s responsible for overseeing compliance within Aspect Group Services Ltd to ensure that our Environmental Policy remains relevant to the business. Moreover we will take action to consider and comply with all relevant environmental requirements, including legal obligations.

Management recognises the importance of the role staff play in upholding environmental standards and actively encourages their involvement in improving existing systems, including reporting of any risk that may adversely affect our environmental standard. We also recognise the importance of ensuring that staff are adequately trained, informed and supervised to fulfil their duties successfully, whilst meeting our environmental benchmarks and standards.

Aspect Group Services Ltd has developed its Management System in line with ISO14001:2015 as it is committed to using a Management System that demonstrates a pro-active approach of employee involvement and continuous improvement of our environmental performance.

The effectiveness of our Environmental Policy and its implementation are subject to Management Review at regular intervals, whilst all related processes and procedures are subject to ongoing internal and external audits.
